## MIXED SOY PROTEIN ISOLATE POWDER

*Drink to Healthy Skin*

Protein is the building block of your body, just like the bricks of your house. It is vital for growth, maintenance and repair of tissues in your body, including your skin. Delicious and rich in plant-based protein, Shaklee ESP Mixed Soy Protein Isolate Powder encourages cell renewal to build a healthy foundation for healthy skin.

### The Shaklee Difference

- Shaklee uses Non-genetically modified (Non-GMO) soy protein produced under Identity Preservation Program (IPP).
- Each serving provides 14g of Low Glycemic Index plant based protein. Soy protein helps reduce cholesterol.\*
- Has PDCAAS (Protein Digestibility Corrected Amino Acid Score) score of 1.0 – the highest value of protein digestibility and highest protein quality.
- Provides 9 essential amino acids.
- Rich in calcium which aids in the development of strong bones and teeth.

*\*Note: Amount of soy protein recommended to give the lowering effect on the blood cholesterol is 25g per day.*

### Protein to **BUILD** Healthy Skin\*

- Promotes healthy production, growth, and development of skin cells.<sup>1-4\*</sup>
- Isoflavones, a natural compound found in soy, is associated with improved skin appearance by binding to estrogen receptors in the skin.<sup>1-4\*</sup>
- Helps to improve skin elasticity and increase collagen synthesis.<sup>1-4\*</sup>

*\*These products are not intended to diagnose, treat, cure, or prevent any disease.*
