

# MINERALS

Minerals help activate the enzymes that perform bodily processes.

## Alfalfa Complex

### Naturally Nutritious

Alfalfa means “father of all foods” and it stands for a reason- it is naturally nutritious. Alfalfa has far-reaching roots system that reaches down as deep as 6 meters, allowing it to absorb more nutrients from the soil. The plant provides more than 300 nutrients and minerals including calcium, phosphorus, iron, magnesium, chlorophyll, bioflavonoids, trace minerals and vitamins.\*

#10159| 330 tablets / 33 servings

**Suggested use: For adults only.**  
Take 10 tablets one time a day with a meal.

#10162| 700 tablets / 70 servings

**Suggested use: For adults only.**  
Take 10 tablets one time a day with a meal.

### THE SHAKLEE DIFFERENCE

Alfalfa Complex is a Shaklee Signature Formula originally developed by Dr. Shaklee in the 1950s.

Grown out of California’s fertile Antelope Valley and to further assure that you get one of the best nutritional content possible, Shaklee harvests their alfalfa at its peak maturity of 2 years old.

Once harvested, it is laid out to dry in the fresh air and warm California sun and Shaklee only uses the leaf powder to make its alfalfa tablets.

Nutritional Facts	
Serving Size: 10 tablets	
Ingredients	Amount Per Tablet
Alfalfa Powder	300.000 mg
Dicalcium Phosphate Anhydrous	103.623 mg
Tricalcium Phosphate	1.921 mg
