NEW ACTIVE CELLULAR HYDRATION TECHNOLOGY

Harnessing the power of botanicals, YOUTH™ uses this exclusive new technology to act as a moisture magnet, attracting water to skin’s outer layers and transforming it into a reservoir to lock in hydration.

Cactus Extract that helps attract and hold moisture in the skin’s outer layer and transports it where needed throughout skin cells.

A unique blend of 4 forms of hyaluronic acid that can retain up to 1,000 times their weight in water to trap and retain moisture in skin’s deeper layers.

100% sustainable plant-based Squalane that helps build a protective barrier to reduce water loss, sealing in hydration for lasting results.

Botanicals from the Youth Complex such as Muscadine Grape, Lotus Japonicus and Schisandra Chinensis for additional anti-aging benefits.
